

## SIGNATORY SCOTCH WHISKY

---

**What do you call the guy  
who bought bottle 674 of 674?**

**One lucky bastard.**

Signatory is an independent bottler of rare Single Malts that would otherwise be lost to the blenders. These Malts are hard to come by, but offer a unique opportunity to taste rare offerings. Signatory selects their casks from large lots of the highest quality scotch. The balance of the casks are then sent back to the blenders. Light filtration ensures the 86 proof malts maintain their natural flavors. The malts are “all natural,” no caramel color is added to change the taste of the Scotch. Signatory scotch is bottled as it comes from the cask to preserve the original flavor. Enjoy this rare collection of Malts chosen to represent each of the different regions of Scotland and make your own comparisons!
